

## Transformers - Revenge of the Fallen Roger Ebert Review

Contributed by Lee Poirier  
Tuesday, 23 June 2009

The Roger Ebert review of Transformers: Revenge of the Fallen contains the elegance and deftness that I have come to expect from Roger:

"Transformers: Revenge of the Fallen" is a horrible experience of unbearable length, briefly punctuated by three or four amusing moments.

That is the first sentence and it just gets better from there. At one point, it actually becomes a review of other reviews of the film. It seemed inevitable, really.
